

## GF42I - GF42TI

Passive 4x2" Line Array Column Speaker - Ppassive with transformer

## GF42AI

Active 4x2" Line Array Column Speaker

GF42I, GF42TI, GF42AI are the smallest and minimalist line array elements of the GF Family. With a new stainless steel grille and new L-bracket system included, the speakers are now upgraded in a MKI version that makes the series more suitable for outdoor installations.

Comprised of 4x2" ferrite magnet woofers closely-spaced into a recycled ABS enclosure, all this columns benefit from K-array™ PAT (Pure Array Technology) to combine all the advantages of a pure line array such as long throw and dispersion control into an ultra-compact box design.

These columns speakers are the perfect solution for speech reproduction: thanks to a great directivity and a narrow vertical dispersion, they ensure high definition and a great intelligibility, as well as music reproduction when coupled with a KGEAR subwoofer.

GF42I is a 100W line array element with selectable impedance: low Z - 16  $\Omega$  / high Z- 64  $\Omega$ .

GF42TI has the feature of an internal transformer and it is compatible with high voltage lines at 70V or 100V with different power taps: 4/8/16/32 W @ 100V or 2/4/8/16 W @ 70V.

GF42AI is an active speaker with a built-in amplifier module comprised of a balanced line input, a mute contact and an auto ON-OFF switch with selectable thresholds, plus a speaker output to connect another KGEAR speaker or passive subwoofer from KGEAR GS family.

GF42I, GF42TI, GF42AI come in black and white (GF42WI, GF42AWI, GF42TWI)

## Wall mount L-brackets (included in the package)

GF42I- GF42AI - GF42TI comes with 2x practicals on-wall mounting brackets, to provide different angles for fixed installations.

## G-IPCAP1 - G-IPCAP2 (not included)

G-IPCAP1 and G-IPCAP2 are two IP sealing protection cap to be applied at the rear panel of the speaker to protect the connectors from water, salt and chlorine.

# GF42I

Technical specifications
Type <b>Passive loudspeaker</b>
Transducer <b>4 x 2" ferrite magnet woofer</b>
Frequency Response <sup>1</sup> <b>160 Hz - 20 kHz (-6dB)</b>
Max SPL <sup>2</sup> <b>111 dB (peak)</b>
Power Handling <b>100 W</b>
Coverage <b>V.25 I.H.90°</b>
Connectors <b>1x Phoenix connector (4-pin Euroblock)</b>
Nominal Impedance <b>8Ω - 32Ω</b>
IP Rating <b>IP55</b>
Handling & Finishes
Dimensions (WxLxH) <sup>4</sup> <b>60 x 340 x 66 mm (2,36 x 13,4 x 2,6 in)</b>
Weight <b>0.8 kg (1.76 lb)</b>
Material <b>ABS</b>
Color <b>Black - White (GF42W)</b>

1 With dedicated preset

2 Maximum SPL is calculated using a signal with crest factor 4 (12 dB) measured at 8 m then scaled at 1 m

3 With dedicated G-IPCAP1

1 With dedicated preset

2 Maximum SPL is calculated using a signal with crest factor 4 (12 dB) measured at 8 m then scaled at 1 m

3 With dedicated G-IPCAP1 accessory

4 Brackets not included in measures - fore more details see the mechanical drawings.

# GF42AI

Technical specifications
Type <b>Active loudspeaker</b>
Transducer <b>4x2" neodymium magnet full-range driver</b>
Frequency Response <sup>1</sup> <b>160 Hz - 20 kHz (-6dB)</b>
Max SPL <sup>2</sup> <b>105 dB</b>
Coverage <b>V.25 I.H.90°</b>
Connectors <b>2x Phoenix connector (4-pin euroblock)</b> <b>Balanced line in</b> <b>Mute Contact</b> <b>Power out</b> <b>24V DC IN (power supply not included)</b>
Controllers <b>Auto ON/OFF with selectable threshold</b>
Amp Module <b>1-channel Class D amplifier</b>
Output Power <b>100W @ 2Ω (24V power)</b>
Power Consumption <b>30W Power Load 1/8 Max Power</b>
Protections <b>Thermal Protections</b> <b>(Power-Limiting - Thermal Shutdown)</b> <b>Short - circuit/overload output protections</b>
Operating Range <b>12-24 V DC</b>
IP Rating <sup>3</sup> <b>IP55</b>
Handling & Finishes
Dimensions (WxLxH) <sup>4</sup> <b>60 x 340 x 66 mm (2,36 x 13,4 x 2,6 in)</b>
