

MAXHUB UC BM35

Bluetooth Teleconference Speakerphone

Unlock a new level of meeting clarity with the next-generation BM35 speakerphone. Crystal clear audio combined with a powerful pick-up range will transform any small to mid-sized meeting spaces. The BM35 is optimized to keep human voices clear while its Hi-Fi sound quality also ensures exceptional listening experiences when playing music or videos.

BM35 state-of-the-art reverberation suppression keeps unnecessary distractions to an absolute minimum, even in glass meeting rooms. It improves the collaborative experience by filtering background noise and echo through its embedded intelligent AI noise cancellation and AEC.

With BM35, talking in a hybrid meeting will feel just as smooth and natural as a face-to-face discussion.
