BENQ TK705i

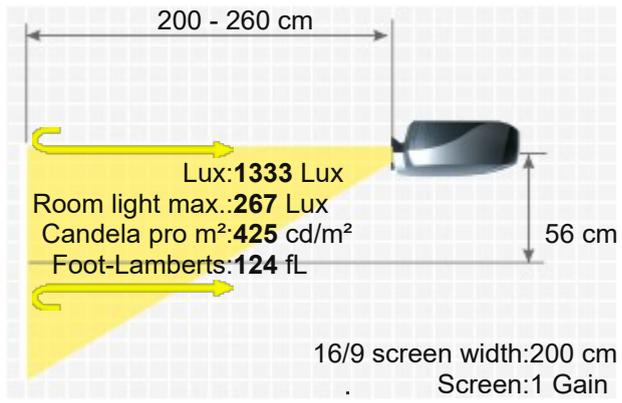

The Benq TK705i model is a DLP LED projector with UHD (4K2K) 3840 x 2160 resolution and a contrast ratio of 6000000:1. Thanks to the LEDs, the projector has a specified light life of 20,000 hours, which would be over 13.7 years if viewed for 4 hours a day. Built-in horizontal and vertical keystone correction gives you freedom when setting up the projector. An image width of up to 556 cm is possible. However, the image should be smaller in room lighting. We recommend a maximum of 371 cm. The integrated Google Assistant turns the projector into a hub in your smart home, combining voice control and a wide range of functions. Thanks to Google TV, the projector can be conveniently controlled by voice command. The projector has Airplay and Miracast screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. The model is also Full HD 1080P and 4K compatible. At just 26 decibels, the device is one of the quieter projectors available.

## Brief Introduction

 1 x DLP Chip  
HDTV 16/9 Ti Digital Light Processing Chip

## Display Type

Ansi-Lumen	3000	1333 Lux (200 cm Screen width)
