THREE KEY BENEFITS

True colour. True contrast. True RGB.

The flagship BRAVIA 9 II is the definitive BRAVIA, with four times the colour of OLED and surpassing Mini LED brightness to present stunning True RGB — the future of colour is here. True RGB is virtually infinite in colour, brightness, and depth. It works using our RGB Backlight Master Drive Pro to ensure precise control over each red, green, and blue LED, controlling each one individually to push the picture quality to its highest expression. This has allowed the BRAVIA 9 II to achieve the largest and purest colour volume in Sony history.

AI XR Processor for enhanced clarity

This unmatched realism is powered by our latest XR Processor, which features an AI scene recognition system that detects and analyses what the creators put on your screen with greater accuracy, optimising each element for a true-to-life viewing experience that will make your jaw drop.

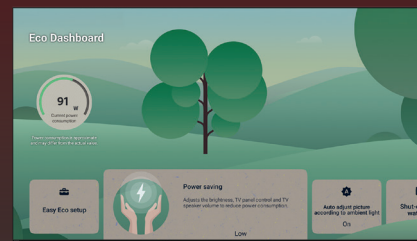

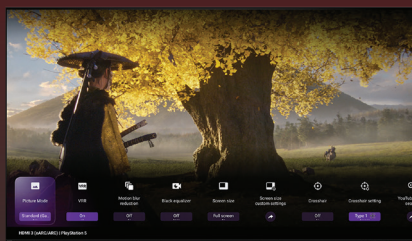

Cinema package with Dolby Vision & Atmos

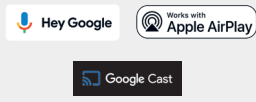

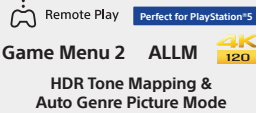

Dolby Vision is a technology you'd usually find at the cinema, available at home on the BRAVIA 9 II. It unlocks the full potential in everything you watch, delivering richer detail through precise pixel control, with sharper contrast, and eye-popping colour.

SONY

Non-contractual visuals, information in this datasheet is subject to change without notice.

OTHER BENEFITS

	<h3>Smart TV</h3>	<p>Browse 100,000+ movies and TV episodes from across your favourite streaming services on this Google TV. With Google Assistant, you can control the BRAVIA 9 II using your voice. Just say "Hey Google" to find movies, play music, get answers to your questions. With Google Cast built-in and Apple AirPlay 2, you can easily share content from your smartphone, tablet, laptop, or computer straight on to the big screen.</p>	
	<h3>Great for Gaming</h3>	<p>The Game Menu 2 puts everything needed to win in one place. 4K/120fps, a Variable Refresh Rate (VRR), and Auto Low Latency Mode (ALLM) are all available as features of HDMI 2.1, ensuring smooth, clear, responsive game play every time.</p>	
	<h3>Eco Features</h3>	<p>To monitor your energy consumption and optimise your efficiency, use the brilliant Eco Dashboard 2. Here, all your energy settings are in one easy-to-use place. You can feel better knowing that you are making smarter decisions for the planet too. The BRAVIA 9 II not only uses recycled materials in its build, but the packaging is smaller and lighter, making for more efficient transportation.</p>	

TECHNICAL SPECIFICATIONS

DISPLAY	
Screen Size	65", 75", 85" & 115"
Resolution	3840 x 2160 (4K)
Display Type	RGB LCD
Pixel Contrast Booster	XR Contrast Booster 40
Display Resolution	QFHD
Wide Angle	X-Wide Angle Pro
Anti-Reflection	Immersive Black Screen Pro (excl. 115")
VIDEO	
Video Processing	XR Clear Image
Object-based Super Resolution	Yes
Peak Luminance	XR Contrast Booster 40, Luminance Booster Pro
TRILUMINOS	RGB Triluminos Max
HDR Remaster	Yes
Smoothing	Smooth Color Gradation
Features for PlayStation®5	Yes
Face Area Detection	Yes
Picture Modes	Vivid, Standard, Cinema, Professional, Calm, Photo, IMAX Enhanced, Dolby Vision (Vivid/Bright/Dark/Game), FPS game, RTS game
